UNCLASSIFIED
“Unclassified” indicates the document in this form (with excisions) has been declassified and cleared for public release.

“Released in Part” indicates part of the document has been approved for release to the public. However, part remains withheld from public disclosure based on the classification categories in EO 12958, as amended.

“Islam 06752” is the cable number of the document. It indicates the cable was sent from the American Embassy in Islamabad, Pakistan.

Cable distribution list—This cable was sent from the American Embassy in Islamabad ("Fm Amembassy Islamabad") to the Secretary of State ("To Secstate Washdc") for immediate distribution. “Info” indicates that copies were sent to the embassies or consulates in London, Moscow, Riyadh, and Peshawar.

“281200Z Mar 90” indicates the date and time of the creation of the document, this is known as the cable’s “date-time group,” or DTG. Standard format lists the date and time of processing in Zulu time (GMT), indicated by the Z at the end of the date-time sequence, followed by the month in tri-letter abbreviation and the two-digit year. This document was created 12:00 p.m. GMT March 28, 1990.

“Decaptioned” indicates the strict distribution restrictions initially placed on the EXDIS document (see below) have been lifted. The marking of “Decaptioned” indicates the document is currently available for wider distribution even though it was initially highly restricted.

“EXDIS” indicates "exclusive distribution to officers with essential need to know." This caption limits distribution to senior officials, and is used for highly sensitive cables sent between the White House, the Secretary of State, Deputy Secretary, under secretaries and chiefs of mission.

“REF” stands for “reference.” These are the numbers for any cables referred to in this document. In this instance, there are two such cables (From the State Department, No. 95642, and from the American Consulate in Peshawar, No. 571).

“TAGS” stands for “Traffic Analysis by Geography and Subject.” Used judiciously, these abbreviations can be a very useful means of identifying cables that are relevant to your research.
