I informed French CONGEN today per instructions. He showed me a telegram from his Foreign Office dated June 15, referring to the position of the German delegates. He asked for me to tell him that Foreign Office had made a proposition to him to join CONGEN in the negotiations. He expressed his interest in the idea on the courtesy basis. Telegram concludes that new considerations set forth in CONGEN message to Foreign Office last week were left to his discretion if and when to see Fischer. He approached with a letter stating previously expressed willingness to meet. Similar letter from German Foreign Office.
