MEMORANDUM FOR MR. HENRY A. KISSINGER
THE WHITE HOUSE

Subject: Visit of Brazilian President - Topics for Conversations with President Nixon

During his state visit to the United States President Emílio Garrastazu Medici will have substantive conversations with President Nixon at the White House on two occasions. The first talks will be held on Tuesday, December 7 immediately following arrival ceremonies. The second meeting probably will be held on December 9.

A lengthy proposed agenda submitted by the Brazilians makes clear President Medici's intent to discuss a wide range of world issues which do not necessarily have a direct bearing on our bilateral relations. This is consistent with the Brazilian Government's increasing consciousness of Brazil's size and growing importance in the world.

We submit, below, a suggested list of topics for the conversations for your approval. This list encompasses the major areas of interest covered in the Brazilian agenda. A copy of their agenda is attached. Any suggestions for changes will be welcome.

1. Brazilian Economic and Social Progress
2. U.S.-Brazilian Relations
4. Economic Issues - Coffee, Textiles, Footwear
5. U.S. Assistance Policies
6. Military Sales and Credits
