ISRAELI PURCHASE ARGENTINE URANIUM

1. FOR BUENOS AIRES: Despite inquiries at technical levels, we have been unable determine whereabouts in Israel of the 80-100 tons of Argentine concentrate. We are disturbed because this amount is far in excess of present Israeli requirements in peaceful uses program and because GOI failure disclose intended use can be source of apprehension and misunderstanding which can have injurious effect on delicately balanced Near Eastern political situation. We intend inquire at high level GOI re disposition uranium obtained from Argentina. In view fact knowledge in Argentina of the sale to Israel is fairly widespread (Buenos Aires A-160 of August 21, 1965) we do not think it necessary to request GOA concurrence in our action. Embassy may wish inform GOA of our intention, if it considers this advisable.

2. FOR TEL AVIV: Embassy should await follow on instructions before making above approach.
