[Excisions]

Intelligence Directorate was reportedly involved in some bombings.

Text: 1. (S/NF/WN/OC) [Excision] reported that "Archivo," the Presidential security
organization headed by Major Valencia ((Osorio)) and Captain (Unk) ((Oliva)),

[Excisions]

3. (S/NF/WN/OC) [Excision] is convinced. [Excision] that at least some of the recent
bombings are the work of the DCG [*Democracia Cristiana Guatemalteca*: Christian
Democratic Party of Guatemala], reportedly in order to divert attention from problems
facing the Cerezo Administration. [Excisions]

4. (S/NF/WN/OC) [Excision] stated that some recent acts of terrorism had been carried
out by the Directorate of Intelligence (D-2). Special Operations Section was responsible
for the grenade attacks against the Peace Brigades and GAM headquarters, both leftist
activist organizations. Other bombings were believed to be the work of the Revolutionary
Organization of the People in Arms (ORPA).

[Comment: . . . Excisions]

2. (S/NF/WN/OC) Equally disturbing is the possibility that the D-2 has used the recent
disturbances as a cover to intimidate leftist opposition organizations.

3. (S/NF) Undoubtedly ORPA, as well as other extremist organizations, have also used
the teachers strike to attempt to foment violence and instability.
