Dear Ms. Hinden,

I am in the fuel business. My company Fuel Masters, LLC, located in Abilene, Texas, is a national fuel brokerage firm. We specialize in delivering the lowest cost fuel available nation wide. My question to you is, do you have access or could you possibly direct me to a nation wide list of all the Farmers Co-op's? If you have this information and are able to, I would greatly appreciate you faxing it or mailing it to me. My fax number is 325 676 3841.

We have been successful in Texas and Oklahoma selling and delivering fuel to many Farmers Co-op's. I am interested in making my services available nationally. I would appreciate any help that you would be willing to provide me with.

Thank you,
