R said he and Davies had session with Secy this afternoon on Israeli situation and he goes along with scenario we have outlined. K said he had talk with Pres this morning and he is very leery of cutting off phantoms. He wants to talk to Golda Meir when she is here - not eager to get conversation started with Roby? R said Rogers goes along with scenario except for phantoms. K said he is in accord with President then. R said Secy did think it would be ~~xxx~~ useful for him to call in Rabin and get started. K said R should hold off. Paper is going up tonight. R asked if K had factual description of the background and K said yes - that would go to Pres too.

R's

K said he forgot to mention at lunch that/instinct as to what Pres might decide on SALT seems to be borne out. K said we might need R's help if this happens because of cries of pain that will come from ACDA. R said he would be glad to help.
