Pete,

my folks are very hot about this - They see it as a short sighted effort of the DSP & O to sell FEWS out. I like you, will back any scheme that makes sense but I don't believe we can abandon the war fighters by taking a near term view. If I'm wrong educate me - if I'm right in support FEWS help me get thing back on track.

- Perception is C.I.R. is out of control.
- P.O. should never compare other programs.
