FCPA REPORTING
FOURTH QUARTER OF 1992
SUMMARY**

During the fourth quarter of 1992, we again had 100% reporting compliance from the 638 employees required to report under the FCPA. Payments were reported by 13 companies in five countries. Aggregate payments by company ranged between \$27 and \$65,330.

Total payments reported during the fourth quarter of 1992 were \$117,989 as compared to \$116,813 for the fourth quarter of 1991.

The third quarter of 1992 payment summary for Guatemala has been revised to include contributions made by COBIGUA in August, 1992, to twelve different charitable, medical and educational institutions in Guatemala in a total amount equal to \$315,230. COBIGUA made these contributions at the request of the Guatemalan government as part of a settlement with the government relating to COBIGUA's claim that it was entitled to a VAT refund in an amount equal to approximately \$660,000. COBIGUA's controller reported these payments in a timely manner, but his report did not make clear that the payments were made at the request of the Guatemalan government and that some of the payments were made to government institutions. As a result, the payments were not initially included in the Summary of Payments submitted for third quarter 1992.

**QUARTERLY PAYMENTS
FCPA REPORTING
THIRD QUARTER OF 1992
SUMMARY**

During the third quarter of 1992, we again had 100% reporting compliance from the 638 employees required to report under the FCPA. Payments were reported by 13 companies in six countries. Aggregate payments by company ranged between \$27 and \$34,904.

Total payments reported during the third quarter of 1992 were \$86,768. This constituted a 56% decrease as compared to the \$197,001 for third quarter 1991. This decrease is largely attributable to the fact that for the third quarter of 1991 Cobal reported a donation of \$88,685 to facilitate repairs of damages caused by the earthquake.

During the third quarter of 1992, the Company and its subsidiaries made payments reimbursing officials of foreign governments for travel, lodging and meal expenses incurred by the officials in attending meetings related to the importation of bananas in the Single European Market and under the GATT. The Company reimbursed or pre-paid travel, lodging, meal and seminar expenses for members of the Costa Rican government in the amount of \$2,028. In Honduras, the Company pre-paid air fare in the amount of \$4,625 to allow the Minister of Economy to accompany the Central American ECC lobby group to meetings in Europe. These payments were lawful under the FCPA because they were not made to influence the governments involved; the payments were not corruptly made and the payments were made to promote our products.

QUARTERLY PAYMENTS
FCPA REPORTING
SECOND QUARTER OF 1992
SUMMARY

During the second quarter of 1992, we again had 100% reporting compliance from the 628 employees required to report under the FCPA. Payments were reported by 15 companies in seven countries. Aggregate payments by company ranged between \$149 and \$43,848.

Total payments reported during the second quarter of 1992 were \$126,386. This constituted a 29% increase as compared to the \$98,039 for second quarter 1991. This increase is largely attributable to the \$23,600 payment reported by Chiquita Brands Indonesia.

The \$23,600 payment made in Indonesia related to the Company's purchase of land for the Indonesian Expansion Program. These payments were made by the Company's minority partner, P.T. Intidaya Primakencana, to members of local governments in Indonesia as reimbursement for expenses associated with the purchase of land, including surveying and inventorying the land. These payments were lawful under the FCPA since they were required to be paid under Indonesian law.

During the second quarter of 1992, the Company and its subsidiaries made several payments reimbursing officials of foreign governments for travel, lodging and meal expenses incurred by the officials in attending meetings related to the importation of bananas in the Single European Market and under the GATT. The Company reimbursed or pre-paid travel, lodging, meal and seminar expenses for members of the Costa Rican government in the amount of \$8,508. In Honduras, the Company pre-paid air fare in the amount of \$4106.71 for the Minister of Economy for trips taken to Europe between May 17, 1992 and May 26, 1992. The Chiriqui Land Company reimbursed various members of the Panamanian government for air fare, transportation and meal expenses totalling \$10,827.04. These payments were lawful under the FCPA because they were not made to influence the governments involved; the payments were not corruptly made and the payments were made to promote our products.

**QUARTERLY PAYMENTS
FCPA REPORTING
FIRST QUARTER OF 1993
SUMMARY**

During the first quarter of 1993, we again had 100% reporting compliance from the 632 employees required to report under the FCPA. Payments were reported by 16 companies in six countries. Aggregate payments by company ranged between \$19 and \$35,790.

Total payments reported during the first quarter of 1993 were \$97,745 as compared to \$81,552 for the first quarter of 1992.

During the first quarter of 1993, Compania Frutera de Sevilla made an in-kind, facilitating payment in the amount of \$16,565. The payment was made by purchasing a jeep for use by the local military in providing security at the Company's Santa Marta division. Due to the sensitivity of this payment, funds for the purchase of the jeep were provided to an individual, not employed by the Company, who then purchased and delivered the jeep. The accounting treatment for this payment was approved by the Corporate Controller's Office and complies with the requirements of the Statement of Policies and Procedures and federal law.

QUARTERLY PAYMENTS
FCPA REPORTING
FIRST QUARTER OF 1992
SUMMARY

During the first quarter of 1992, we again had 100% reporting compliance from the 611 employees required to report under the FCPA. Payments were reported by 14 companies in seven countries. Aggregate payments by company ranged between \$225 and \$27,360.

Total payments reported during the first quarter of 1992 were \$81,552. This constituted a 32.3 % decrease as compared to the \$120,384 for first quarter 1991. This decrease is largely attributable to the substantial reduction in amounts reported by Tela Railroad Company this quarter as compared to first quarter 1991.

An audit of Chiriqui Land Company, Bocas Division, conducted during the first quarter of 1992 disclosed that payments in the form of food vouchers of approximately \$6,722 per quarter during 1991 had been made to local police for providing security services for various company facilities. These amounts were in addition to previously disclosed cash payments for such services. The Summary of Payments for January 1- December 31, 1991 has been revised to reflect this disclosure.

**QUARTERLY PAYMENTS
FCPA REPORTING
FIRST QUARTER OF 1993
SUMMARY**

During the first quarter of 1993, we again had 100% reporting compliance from the 632 employees required to report under the FCPA. Payments were reported by 16 companies in six countries. Aggregate payments by company ranged between \$19 and \$35,790.

Total payments reported during the first quarter of 1993 were \$97,745 as compared to \$81,552 for the first quarter of 1992.

During the first quarter of 1993, Compania Frutera de Sevilla made an in-kind, facilitating payment in the amount of \$16,565. The payment was made by purchasing a jeep for use by the local military in providing security at the Company's Santa Marta division. Due to the sensitivity of this payment, funds for the purchase of the jeep were provided to an individual, not employed by the Company, who then purchased and delivered the jeep. The accounting treatment for this payment was approved by the Corporate Controller's Office and complies with the requirements of the Statement of Policies and Procedures and federal law.
