

MEMORANDUM

THE WHITE HOUSE
WASHINGTON

RECEIVED

JUNE 18, 1969

FOR THE PRESIDENT

Herewith is a report of your marijuana and dangerous drugs task force headed by Dick Kleindienst.

We have prepared a brief synopsis of the report which is attached to its cover.

The task force recommends that the Mexican government be forced into a program of defoliation of the marijuana plants (using borrowed or leased equipment from the United States) by commencing a campaign of strict enforcement and customs inspection at the border including control of small plane flights, etc.
