RTK, RELEASED IN FULL

This should help put to rest the great Algeria nuclear weapons scare.

We are still going ahead with intel briefing (as Ross requested), but modified to reflect new info.

I've asked Stratford to have NTS draft response to para 18 on safeguards technicalities.

I repeated to UNVIE and other posts.

Finally, we need to modify Kimmitt's points for Beijing. I'll work with P and EAP to get this done.
