CHRONOLOGY  
TRANSFER AND DISPERSAL OF  
NUCLEAR WEAPONS

Jun 14, 1950 Transfer of [redacted] nonnuclear components of the Mk 4 bombs from AEC to DoD for training.

Aug 1950 Transfer of nonnuclear components from AEC to the USAF for storage at overseas bases and to the Navy for storage on the [redacted] (weapons).

Late 1950 Nonnuclear components moved to UK [redacted] and to Guam [redacted].

Dec 6, 1951 Nonnuclear components authorized on [redacted].

May 1951 Nonnuclear components authorized on [redacted].

Apr 6, 1951 President authorized the transfer of [redacted] nuclear bombs from AEC to General Vandenburg. This was the only dispersal and transfer authorization in fiscal years 1951 and 1952.

Jun 1951 The [redacted] bombs transferred to General Vandenburg's custody were moved to Guam.

Jul 22, 1952 Nonnuclear components [redacted] authorized for storage in UK, Guam, [redacted] and on carriers.

Jun 20, 1953 President authorized dispersal of weapons under AEC control to carriers, ammo ships, Guam, [redacted] and the UK. Nonnuclear components could be stored at the above locations and Alaska, Hawaii, [redacted]. This constituted the dispersal authorization for fiscal years 1953 and 1954.

Jul 1953 Arrangements were made with the AEC for storage of [redacted] nuclear weapons on carriers (and Guam).

Apr 1954 The President authorized the dispersal of nuclear weapons under AEC control to ammunition ships, cruisers and submarines.

A-2

~~TOP SECRET~~

~~TOP SECRET~~

- Dec 1, 1954 For FY 1955 the President authorized the transfer of [redacted] nuclear weapons from AEC to DoD. Dispersals were authorized to CONUS, the UK, [redacted] West Germany, Hawaii, Guam, [redacted] naval vessels.
- Jan 1955 Nuclear weapons were dispersed to UK, [redacted] Guam, Hawaii, [redacted] naval vessels. Dispersal to Alaska, [redacted] and West Germany had also been authorized by the President on December 1, 1954.
- Aug 29, 1955 The President authorized [redacted] low yield (under DoD custody) and [redacted] high yield (under AEC custody) to be dispersed in CONUS, UK, [redacted] West Germany, on Guam, [redacted] Hawaii and naval vessels in FY 1956.
- Mar 8, 1956 The President amended the August 29, 1955 authorization and established a ceiling of [redacted] weapons to be transferred from AEC to DoD, exclusive of high yield.
- Nov 24, 1956 The FY 1957 dispersal plan was approved. Totals of [redacted] low yield under DoD and [redacted] high yield under AEC could be dispersed.
- Aug 6, 1957 A total of [redacted] low yield and [redacted] high yield weapons and a combined total of [redacted] were authorized for dispersal during FY 1958.
- Jan 3, 1959 The President ordered the transfer of [redacted] low yield and [redacted] high yield weapons (for the first time) to DoD for FY 1959. The high yield weapons were to be transferred when AEC and DoD had worked out the arrangements.
- Feb 26, 1959 The President authorized the transfer of [redacted] nuclear weapons to DoD for FY 1959. This authorization replaced the FY 1959 January 3, 1959 approval. DoD now was authorized custody of both low and high yield weapons.
- Nov 5, 1959 The President approved the FY 1960 dispersal plan and authorized DoD custody of [redacted] weapons. Dispersal was authorized for the first time to [redacted]
- Jan 16, 1961 The FY 1960 dispersal plan was approved by President Eisenhower. DoD was given custody of [redacted] weapons.

A-3

~~TOP SECRET~~

~~TOP SECRET~~

- May 20, 1961 President Kennedy approved the FY 61 NWDCP of January 16, 1961 provided that additional weapons were not dispersed in support of non-US forces and subject to the desirability of retaining a substantial reserve in the National Stockpile Sites. This was the basic dispersal authorization for US forces for FY 61, 62 and 63, and for non-US forces in FY 61.
- Apr 10, 1962 NSAM 143 authorized the dispersal of [redacted] nuclear weapons for support of designated non-US NATO forces. However, it also precluded the loading of [redacted] exclusive of forces in the United Kingdom. This was the basic dispersal authorization for non-US forces for FY 62 and FY 63.
- Oct 23, 1962 NSAM 197 required "approvals in principle" by the President for support of non-US forces. Dispersal approval for weapons for these forces would continue under NSAM 143.
- Dec 26, 1962 President Kennedy disapproved the proposed FY 62 dispersal plan but did permit DoD custody of [redacted] nuclear weapons and components.
- Feb 27, 1963 The Deputy Secretary of Defense clarified the President's authorization/denial of December 26, 1962. He permitted the additional dispersal of [redacted] weapons over the January 16, 1961 (FY 61) authorization to areas under full US control.
- Jun 16, 1964 NSAM 305 approved the FY 64 NWDCP. It authorized DoD to obtain custody of [redacted] nuclear weapons and components. It continued the requirements of NSAMs 143, 160 and 197.
- May 17, 1965 The Secretary of Defense, Mr. McNamara, imposed a ceiling of [redacted] ADMs which could be dispersed to Europe.
- Jun 1, 1965 NSAM 334 approved the NWDCP for FY 65 and FY 66. DoD was authorized custody of [redacted] nuclear weapons. No additional ADMs could be dispersed to Europe. A ceiling of [redacted] weapons was imposed on NATO Europe. NSAM 143 and NSAM 197 actions were continued.
- Feb 10, 1967 The President authorized the transfer to DoD of all finished nuclear weapons in the stockpile.

A-4

~~TOP SECRET~~

~~TOP SECRET~~

Aug 4, 1967 NSAM 364 authorized DoD to disperse weapons for FY 67 and FY 68. The ceilings of [redacted] weapons for NATO Europe and [redacted] ADMs for Europe was continued.

Jan 26, 1968 The Deputy Secretary of Defense notified the JCS that no additional dispersals would be made to NATO Europe and that he intended to hold the number of weapons in NATO Europe at [redacted] and afloat in the Atlantic [redacted] and Pacific [redacted] at the numbers actually deployed as of December 31, 1967. He allowed a 10% overage for weapons afloat. Any dispersals over these limits had to be approved by the Secretary of Defense.

Jan 26, 1968 The actual number of weapons in NATO Europe [was [redacted]]

Apr 6, 1968 The Deputy Secretary of Defense authorized an increase of [redacted] weapons to his ceiling of [redacted] weapons for the Atlantic Fleet.

Jun 11, 1968 NSAM 370 approved the NWDCP for FY 69. The ceilings of [redacted] for NATO Europe and [redacted] for ADMs in Europe were continued in effect. NSAM 143 was modified to permit "case by case" dispersals to be authorized by the annual NWDCP. A ceiling of [redacted] weapons was set for dispersals outside of CONUS.

Jun 25, 1968 The Deputy Secretary of Defense established a new ceiling of [redacted] weapons afloat less Polaris warheads.

Aug 6, 1968 The Deputy Secretary of Defense established a ceiling of [redacted] weapons for NATO Europe and a total of [redacted] weapons afloat excluding strategic offensive missiles.

Jan 18, 1969 NSAM 372 authorized the FY 70 NWDCP. The ceilings of [redacted] and [redacted] for total weapons in NATO Europe and ADMs in Europe was continued. The maximum number of weapons outside CONUS was set at [redacted]

May 9, 1970 NSDM 60 authorized the FY70 NWDCP. The President desired revised NATO and ADM tables. Revised tables as approved established NATO Europe ceiling at [redacted] the ADM ceiling for Europe at [redacted]. The maximum number of weapons outside CONUS was set at [redacted]

A-5

~~TOP SECRET~~

~~TOP SECRET~~

- Nov 20, 1970 The Deputy Secretary of Defense delegated authority to the JCS to increase approved deployment levels in NATO Europe when specified conditional deployments were made and to increase specified deployments in any theater up to 10% when necessary to meet contingencies.
- Jul 20, 1971 NSDM 121 authorized the FY72 NWDCP. The President approved ceilings of [redacted] to NATO Europe and [redacted] for ADMs in Europe. He denied an increase of [redacted] weapons [redacted]. A ceiling of [redacted] was set for dispersals outside of CONUS.
- Jul 18, 1972 NSDM 178 authorized the FY73 NWDCP. The President approved ceilings of [redacted] to NATO Europe and a European ADM ceiling of [redacted]. A ceiling of [redacted] was set for weapons dispersed outside of CONUS.
- Jul 18, 1973 NSDM 226 authorized the FY74 NWDCP. The President established ceilings of [redacted] for NATO Europe and [redacted] for ADMs in Europe. The total authorized for dispersal outside CONUS was [redacted].
- Jun 20, 1974 The President, by NSDM 258, approved a change to the nuclear weapon yield constraint imposed by NSAMs 143 and 199. The yield shall now not exceed [redacted] kt (accommodating B61-2 and B61-3 nuclear bomb support of non-US NATO forces).
- Oct 8, 1974 NSDM 274 authorized the FY75 NWDCP. The President established ceilings of [redacted] for NATO Europe and [redacted] for ADMs in Europe. A ceiling of [redacted] was set for dispersals outside CONUS.
- Apr 30, 1975 General Scowcroft, Deputy Assistant to the President for National Security Affairs, notified General Wickham, Military Assistant to the Secretary of Defense, that the President had directed there would be no withdrawal of US forces or nuclear weapons from overseas areas without his expressed approval.

A-6

~~TOP SECRET~~

~~TOP SECRET~~

May 23, 1975 General Scowcroft notified General Wickham that the President had approved a request to remove [redacted] old weapons from Guam to retirement.

Jun 30, 1975 General Scowcroft notified the Secretary of Defense that the President authorized a continuation of FY 75 deployments pending decision on the FY 76 plan.

Jul 16, 1975 NSDM 300 authorized the FY 76-77 NWDP. The President approved a ceiling of [redacted] for NATO Europe. The total authorized for dispersal outside CONUS was [redacted]. It also requested the rationale used in developing the plan and that revised tables reflecting Presidential changes be submitted.

Aug 1, 1975 Secretary of Defense forwarded the rationale and revised deployment tables to the President.

Jan 27, 1976 General Scowcroft informed the Secretary of Defense that the President approved an assignment of an additional [redacted]

May 4, 1976 NSDM 328 provided Presidential approval of modification to SSBN commitments to NATO.

Jul 7, 1976 NSDM 332 authorized the FY 77-78 NWDP. The President approved a ceiling of [redacted] for NATO Europe. The total authorized for dispersal outside CONUS was [redacted].

Jul 19, 1976 All nuclear weapons were removed from [redacted].

Dec 18, 1976 General Scowcroft informed the Secretary of Defense that the President had decided to delay withdrawal of the Sergeant missile battalion [redacted].

Mar 18, 1977 Secretary of Defense requested approval from the President to delay withdrawal of [redacted] B61 bombs from [redacted].

Mar 31, 1977 General Scowcroft informed the Secretary of Defense of Presidential approval in delaying B61 bomb withdrawal [redacted].

Apr 23, 1977 All nuclear weapons were removed by air [redacted].

APPENDIX E

NUCLEAR WEAPONS STOCKPILE

(End FY 1947 through End FY 1977)

- NOTES:
1. The warhead totals include those for maintenance, retrofit, stockpile sampling, destructive testing, operational spares and retirement.
  2. The differences between the individual totals in these stockpile tables and other tables involve unassociated warheads and certain weapons held by the DoE (formerly AEC) in CONUS.
  3. The MACE and MATADOR missiles were classed as strategic offensive weapons during the period 1955 through 1960. Subsequently, they were classed as tactical offensive missiles.

POLICY AND GUIDANCE STATEMENTS

FOR

CUSTODY OF NUCLEAR WARHEADS FOR

ARMY NATIONAL GUARD NIKE-HERCULES (U)

~~SECRET~~

~~SECRET~~

APPENDIX F

POLICY STATEMENT  
FOR  
CUSTODY OF NUCLEAR WARHEADS FOR  
ARMY NATIONAL GUARD NIKE-HERCULES (U)

1. ~~(S)~~ The custody of nuclear weapons deployed with the Army National Guard units, at all times until released for use, will be with members of the Army National Guard who are employed by the Federal Government as National Guard technicians. Release of these weapons for tactical employment will be authorized only by officers of the U.S. Armed Forces on active duty through a Federal chain of command.

2. ~~(S)~~ Active Army Commanders will exercise their command responsibility for the custody and control of deployed nuclear warheads for Army National Guard NIKE-HERCULES units through a Federal chain of command to include responsibility for: the transfer, movement, and access to nuclear weapons and the maintenance of accountability of nuclear weapons. Accountability of nuclear warheads will be maintained by Active Army Accountable Officers of Army Area commands. The Active Army Commander's other responsibilities for safety, security, storage, and maintenance of nuclear weapons at the sites may be discharged for him by the participating States through their National Guard chain of command as mutually agreed with each Governor concerned.

GUIDANCE FOR CUSTODY AND CONTROL OF WARHEADS  
FOR ARMY NATIONAL GUARD NIKE-HERCULES (U)

1. (U) Purpose. To establish the policy of responsibilities for custody and control of nuclear warheads for the NIKE-HERCULES/MK 31 System when issued to the Army National Guard.

2. (U) Employment of Nuclear Weapons. Nuclear weapons will be provided for tactical employment by Army National Guard air defense units in accordance with:

a. The appropriate (1) rules of engagement or (2) interception and engagement instructions and procedures.

b. The authority and conditions specified by the commander of the unified command.

~~SECRET~~

~~SECRET~~

3. (S) Policy. The custody of nuclear weapons dispersed at National Guard areas (on site) at all times until released for use, will be with members of the Army National Guard who are employed by the Federal Government as National Guard technicians. Release of these weapons for tactical employment will be authorized only by officers of the U.S. Armed Forces on active duty through a Federal chain of command.

4. (S) Custody of Nuclear Warheads for Army National Guard NIKE-HERCULES

a. Custody of Nuclear Warheads. Custody is the responsibility for: (1) the control of transfer, movement, and access to atomic weapons and (2) the maintenance of accountability of atomic weapons including nuclear and non-nuclear components. (AEC-DoD Stockpile Operations Agreement, March 1967)

b. Custodial Requirements. The custodial requirements for National Guard technicians are:

(1) The transfer and movement of nuclear weapons within National Guard areas (sites) will be controlled for the responsible Active Army Commander by custodians who are members of the Army National Guard employed by the Federal Government as National Guard technicians. An Active Army Commander will be directly responsible for transfer and movement of nuclear weapons to and from such areas.

(2) The senior National Guard technician on duty at each site will control access to nuclear weapons for the responsible Active Army Commander. Access should be controlled to the extent that it would take an act of force against an individual in a National Guard technician status and, therefore, against the Federal Government to gain unauthorized access to a nuclear weapon.

(3) Army Accountability Requirements. An Active Army Accountable Officer under an appropriate command will maintain accountability of nuclear weapons.

5. (S) Release of Nuclear Warheads Dispersed to Army National Guard NIKE-HERCULES Sites.

a. Control procedures will be established to prevent the launching of a nuclear-armed missile prior to authorized release for operational employment.

b. NIKE-HERCULES arm plugs will be inserted in missiles only when authorized by appropriate Active Army authority. At all other times, arm plugs will be removed and safeguarded as a positive means of preventing unauthorized arming.

~~SECRET~~

~~SECRET~~

6. (C) Command Responsibilities. In addition to responsibility for custody of nuclear weapons as described above, the Commander in Chief, U.S. Army, Pacific (CINCUSARPAC) and the Commanding General, U.S. Army Air Defense Command (CGARADCOM), retain command responsibility for safety, security, storage, and maintenance of these weapons. By mutual agreement with the Governors of the States concerned, CINCUSARPAC and CGARADCOM are authorized to discharge these four latter responsibilities through the appropriate National Guard chain of command. This authorization is effective for so long as the National Guard conforms to pertinent directives. In exercising these responsibilities for safety, security, storage, and maintenance, appropriate Active Army Commanders will inspect Army National Guard air defense units and will provide such directives as may be required. The National Guard technicians will observe the proper implementation of these responsibilities.

7. (U) Safety. The safety rules for the NIKE-HERCULES nuclear weapon system must be understood and complied with by National Guard personnel concerned.

8. (C) Security.

a. Installation Security. Installation security of on-site nuclear weapons and all associated equipment is the responsibility of the State National Guard concerned. National Guard commanders will provide adequate guards to protect nuclear weapons and associated equipment located on-site. They will ensure the coordination and implementation of prescribed security measures. Detailed nuclear weapons security plans will be submitted to CINCUSARPAC or CGARADCOM for review and approval.

b. Security Clearances. The appropriate security clearance will be obtained for each National Guard member before he may carry out his specific duty in support of this plan.

c. Security Devices. As an aid to maintaining effective custody and security, intrusion alarm devices and sentry dogs will be used when practicable.

9. (U) Storage and Maintenance. The State National Guard concerned is responsible for proper storage and organizational maintenance of on-site nuclear warheads, utilizing as appropriate the authorized storage, maintenance, and assembly facilities made available by the Active Army. Appropriately trained and cleared National Guard personnel will accomplish organizational maintenance of nuclear warheads.

~~SECRET~~

~~SECRET~~

10. (U) Custodial Personnel. All National Guard technicians given custody of weapons will be officers, warrant officers, or enlisted personnel employed by the Federal Government as National Guard technicians responsive to the Secretary of Defense through a Federal chain of command. They will be qualified by training and/or experience and will have appropriate security clearances. Personnel and medical records will be screened, and behavior of individuals will be observed continually in order to detect promptly and/or prevent aberrant actions.

11. (U) Inspections. Army National Guard NIKE-HERCULES units equipped with a nuclear weapon system will be subject to inspection by representatives of agencies such as the appropriate unified or Army command, Department of the Army, or DASA.

12. (U) Agreement. A mutual agreement between the Governor of a participating State and CINCUSARPAC or CGARADCOM, or their designated representatives, consistent with this policy, will be negotiated, prior to the transfer of custody of nuclear weapons to National Guard technicians. The agreement will state explicitly that the National Guard technicians granted custody of nuclear weapons are under the sole final authority of a Federal chain of command in relation to their custodial responsibilities. Such agreement will be subject to approval by the commander of the appropriate unified command.

~~SECRET~~

This page intentionally left blank.

This page intentionally left blank.

~~SECRET~~

12. (U) Human Reliability Program. The provisions of the US Air Force Human Reliability Program apply for each member of the ANG assigned responsibilities in support of this policy.

13. (U) Inspections. ANG units equipped with a nuclear weapon system will be subject to inspection by representatives of the appropriate unified or Air Force command, the Department of the Air Force, and the Defense Nuclear Agency.

14. (U) Agreement. An agreement between the governor of a participating state and the ADC or its designated representative, consistent with this policy, will be in effect prior to the transfer of custody of nuclear weapons to ANG technicians. The agreement will state explicitly that the ANG technicians granted custody of nuclear weapons are under the sole final authority of a Federal chain of command with respect to their custodial responsibilities. Such agreement will be subject to approval by the Commander, ADC.

~~SECRET~~

~~SECRET~~

with governors of states concerned for the discharge of these four latter responsibilities through the appropriate ANG chain of command. Appropriate active Air Force commanders will inspect ANG air defense units and will provide such directives as may be required.

7. (U) Safety. Safety rules and Air Force directives for Air Force fighter-interceptor nuclear weapon systems used by active Air Force units will be applicable to ANG units.

8. (S) Security.

a. Installation Security. The security provided for nuclear weapons with ANG units will be comparable to that required for similar resources in the custody of active Air Force units. ANG commanders will provide sufficient security personnel to protect nuclear weapons and associated equipment wherever active Air Force security personnel are not provided. They also will insure the coordination and implementation of prescribed security measures. The commander responsible for security will submit detailed nuclear weapons security plans to the ADC for review and approval.

b. Security Clearances. The appropriate security clearances for each member of the ANG will be obtained in accordance with DoD and Service directives before he may be assigned responsibilities in support of this policy.

9. (U) Storage and Maintenance. Properly trained and cleared ANG personnel will accomplish storage and maintenance of nuclear weapons. In cases where nontechnician ANG personnel accomplish storage and maintenance of nuclear weapons, they will always be under the direct supervision of technician personnel. For ANG units collocated with similar active Air Force units, storage and maintenance of nuclear weapons may be accomplished by active Air Force personnel.

10. (U) Convoy and Loading. Properly trained and cleared nontechnician ANG personnel are authorized to perform those operations relating to on-base convoy and loading of nuclear weapons. These operations will always be monitored by an ANG technician.

11. (U) Custodial Personnel. All ANG technicians given custody of nuclear weapons will be officers, warrant officers, or enlisted personnel employed by the Federal Government as ANG technicians responsive to the Secretary of Defense through a Federal chain of command. They will be qualified and will have appropriate security clearances.

~~SECRET~~

~~SECRET~~

duty US Air Force personnel or with members of the ANG who are employed by the Federal Government as Air National Guard technicians. Release of these weapons for employment will be authorized only by officers of the US Armed Forces on active duty, through a Federal chain of command.

4. ~~(S)~~ Custody of Nuclear Weapons for ANG Units.

a. Custody of Nuclear Weapons. Custody is the control of transfer and movement of, access to, and accountability for nuclear weapons and components.

b. Custodial Requirements.

(1) The transfer and movement of nuclear weapons by ANG units will be controlled for the responsible active Air Force commander by custodians who are active Air Force personnel or who are members of the ANG, employed by the Federal Government as Air National Guard technicians. An active Air Force commander will be directly responsible for transfer and movement of nuclear weapons to and from such units.

(2) The senior ANG technician on duty in a unit, not collocated with a similar active Air Force unit, will control access to nuclear weapons for the responsible active Air Force commander. Access will be controlled to the extent that it would take an act of force against an individual in a National Guard technician status and, therefore, against the Federal Government to gain unauthorized access to a nuclear weapon. For ANG units collocated with similar active Air Force units, access to nuclear weapons may be controlled by active duty US Air Force personnel or by ANG technicians.

(3) Accountability for nuclear weapons will be in accordance with established Air Force procedures.

5. ~~(S)~~ Release and Expenditure of Nuclear Weapons Deployed to ANG Units. Control procedures will be established to insure that nuclear weapons are not expended until receipt and authentication of an order conveying US Presidential authorization for the release of nuclear weapons.

6. ~~(S)~~ Command Responsibilities. In addition to responsibility for custody of nuclear weapons as described above, the Commander, US Air Force Aerospace Defense Command (ADC), retains command responsibility for safety, security, storage, and maintenance of these weapons. CINCONAD or the Commander, ADC, is authorized to enter into appropriate agreement

~~SECRET~~

APPENDIX G

POLICY STATEMENT FOR CUSTODY OF  
NUCLEAR WEAPONS FOR AIR NATIONAL GUARD (U)

1. (S) The custody of nuclear weapons deployed with Air National Guard units will, at all times until nuclear weapons are released for use, be with active duty US Air Force personnel or with members of the Air National Guard who are employed by the Federal Government as Air National Guard technicians. Release of these weapons for employment will be authorized only by officers of the US Armed Forces on active duty, through a Federal chain of command.
2. (S) Active Air Force commanders will exercise their command responsibilities for the custody of deployed nuclear weapons for Air National Guard units through a Federal chain of command. These responsibilities include the transfer and movement of, access to, and accountability for nuclear weapons and components. The active Air Force commander's other responsibilities for safety, security, storage, and maintenance of nuclear weapons may be discharged for him by the participating states, through their Air National Guard chain of command, as mutually agreed with the governor of each state concerned.

GUIDANCE FOR CUSTODY OF NUCLEAR WEAPONS FOR THE  
AIR NATIONAL GUARD FIGHTER-INTERCEPTOR AIRCRAFT (U)

1. (U) Purpose. To establish policy and responsibilities for custody of nuclear weapons when assigned to the Air National Guard (ANG) for employment in conjunction with fighter-interceptor aircraft.
2. (U) Employment of Nuclear Weapons. Nuclear weapons will be provided for employment by ANG air defense units in accordance with:
  - a. The appropriate rules of engagement, or interception and engagement instructions and procedures.
  - b. The authority and conditions specified by the commander of the appropriate unified command.
3. (S) Policy. The custody of nuclear weapons deployed with ANG units will, at all times until nuclear weapons are released for use, be with active
