

DEPARTMENT OF STATE INSTRUCTION

637
CONFIDENTIAL

THIS DOCUMENT MUST BE RETURNED
TO THE RM/R QUINRAI FILES

NO.: A-120, March 7, 1958

SUBJECT: Atomic Energy Developments

TO: The American Embassy, TEL AVIV

Reference is made to OASD: Section B, Item VII-B-1.

The Department has need of reporting on the nature and progress of Israeli nuclear research and development in all its phases. Particular interest centers in Israeli private or official agreements or exchanges with foreign individuals, institutions and governments. An example is the exchange of research and materials between Israel and France so far unreported by the Embassy but announced in the Jerusalem Post of February 4, 1958.

Although some of this information may be difficult to obtain, it would be appreciated if the Embassy would bear in mind the Department's urgent need for this information.
